

M100/M200 Series Camera with Safety Lanyard Mounting Template

NOTE: This mounting template is for use with an M100/M200 Series camera fitted with a safety lanyard (A80576). If your camera is not fitted with a safety lanyard, use the mounting template provided with the camera instead (Doc. no. 77001).

NOTE: The supplied right-angled RayNet and power cables can be used when mounting to surfaces up to 25.4 mm (1.0 in) thick. If mounting to surfaces more than 25.4 mm (1.0 in) thick, straight RayNet and power cables (available separately) must be used.

NOTE: This document may NOT print true to scale. Before modifying mounting surface, ensure printed template matches the measurements provided.
